FIRING BY RUSSIANS WAS NOT JUSTIFIABLE

North Sea Commission Makes Public Its Decision.

CZAR'S COMMISSIONER DISSENTS

Russian Admiral Did All He Could to Protect Fishermen, But Should Have Notified Neighboring Maritime Powers of His Action.

Paris, Feb. 25.—3:30 p. m.—The decision in the international commission of inquiry into the North sea incident was publicly announced at the closing session of the commission today.

The decision lengthily sets forth the circumstances and incidents and gives the opinion of the admirals on the various important points involved. The decision says the delay of the Russian transport Kamschatka following the break down of her machinery was perhaps the cause of the incident. The commander of the Kamschatka signaled to Admiral Rojestvensky and reported that he was attacked by torpedo boats. The admiral, therefore, had reason to believe he was attacked and gave orders for strict vigilance against the possible approach of torpedo boats.

The majority of the commission considers that Admiral Rojesvensky's orders were not excessive in lieu of war, particularly under the circumstances, and that he had every reason to consider the situation very alarming.

The commission, the decision says, recognizes unanimously that the fishing fleet committed no hostile act and the majority of the commissioners being of the opinion that they were not neither among the fishing boats nor in their vicinity as torpedo boats, the opening of fire by Admiral Rojstvensky was not justified.

The decision further says the Russian commissioner did not share in the latter opinion.

"In any event, the decision continues, the commissioners are glad to recognize unanimously that Admiral Rojestvensky personally, did all he could from the commencement to the end to prevent the trawlers from being the object of the fire by the Russian squadron."

Concerning the squadron's proceeding without assisting the damaged trawlers, the decision says:

"The commissioners are unanimous that under the circumstances preceding and following the incident that there was such uncertainty concerning the danger to the squadron as to warrant Admiral Rojestvensky in continuing his route.

"However, the majority regrets that the admiral did not inform the neighboring maritime powers of what had occurred."

The decision concludes as follows:

"The commissioners declare that their views as formulated are not of a nature to cast any disrespect on the military valor nor upon the sentiments of humanity of Admiral Rojestvensky and the personnel of his squadron."

Ottawa, Ont., Feb. 27.—Cadet Augustus Agnew, scion of a well known and wealthy family, aged 26, has been expelled from the Royal Military college of Kingston, Canada's exclusive West Point, for marrying Miss Mai Gober, eldest daughter of Dr. Gober, of Georgia, a very prominent southern gentleman. The wedding has just been announced, though it took place in December. The bride was a brilliant graduate of Queens college, and principal of the Kingston Ladies' college Agnew violated the regulations which forbid cadets marrying.

CRUISER BOSTON ARRIVES.

Battleship Had Serveral Cases of Yellow Fever on Board at Panama.

San Francisco, Feb. 27—The United States cruiser Boston has arrived here from Panama, via Acapulco.

The Boston left here several months ago, accompanying the other vessels of the Pacific squadron to the southern coast, but was left at Panama by the flagship New York. While there yellow fever broke out on board, causing the death of Dr. Kahlpase, the ship's doctor, and Tom Matsumoto, a Japanese messman.

After these deaths occurred the ship was ordered north and left Panama with the intention of going to Puget sound. All sickness having passed, however, Capt. Mills, in command, decided to put into this port. She has two convalescents on board, a marine and a Japanese messman. Lieutenant Wood and Paymaster F. P. Sackett were left in the hospital at Ancon, Brazil, with yellow fever.

Stieglitz, aged 26 years, who lives at 525 West North avenue, died early yesterday morning at the residence. The deceased was a driver for the Troy steam laundry. It was generally known that he was subject to these fits, although otherwise he was of sound mind and had many friends. A little over a week ago he was found lying on the floor of the fourteenth story of the Empire building quivering from head to foot. He was taken to the Grady hospital, and it was there found that he had taken carbolic acid.

CHICAGO EDITOR ARRESTED.

United States Authorities Claim He Sent Prohibited Matter in Mail.

Chicago, Feb. 27.—For years it is declared Mozes Harmon, more than 80 years old, has been the editor of a magazine which constantly wars against marriage and against the treatment and education given young women by their mothers and has twice served terms in th epenitentiary, so great was his love for his theories.

After release from the penitentiary several months ago he again took up the editorship of his paper, entitled The Lucifer, with the result that he has been arrested by a deputy United States marshal on a charge of sending prohibited matter through the mails. He was held to the federal graud jury in bond of $1,000.

In connection with the printing of the Lucifer, Harmon, it is alleged, has purchased a large number of books and articles written by a woman, all of which strike at the base of the sacredness of marriage and the proper teaching and rearing of girls.

Famouse Lion Dead.

New York, Feb. 27.—Hannibal, the hairiest lion in the world, which was presented to the New York Zoological Gardens in the Bronx, in the name of his little daughter Marjorite, and at her request by Andrew Carnegie, has been gathered to his father. The majestic beast, which was one of the largest in captivity, is dead, after an illness of three days. Pneumonia following a cold he contracted in the early part of the week was the cause. Everything that science could do to save the animal was done, and he took the medicine prescribed in good temper, but without avail.

Three Held for Manslaughter.

Dublin, Ga., Feb. 27.—Willie Thomas, Milton Thomas and Perry Mullis have been bound over to the superior court on the charge of involuntary manslaughter. These men were arrested last Monday, on warrants sworn out at the instance of the coroner's jury, which decided that they were guilty of the murder of John Lee Persons, a negro, last Saturday night. The bonds were placed at $1,000 each, which the three men gave.

SAVED COMRADE FROM DEATH.

Brave Lineman Catches Falling Man and Saved His Life.

Atlanta, Feb. 27.—H. M. Strange, a lineman, whose home is in Joneboro, did a most heroic act Friday morning when he caught in his arms Harold B. Cummings, who fell from the top of a pole at the corner of Pryor street and Hendricks avenue. But for the presence of mind of Strange, and his act of fearlessness, Cummings would probably have been killed.

Cummings was at work on the top of the pole, and Strange was standing on the sidewalk watching him. Suddenly Cummings cried out, and as he did so he began to fall. Strange instantly realized that Cummings was falling to his death, and he braced himself and held out his arms to catch the falling man.

When the impact occurred, Strange was thrown violently to the ground, but he was not injured. Cummings had his spine sprained, and there were no bones broken.

Strange does not seem to think he did anything out of the ordinary, and speaks about the matter as if he had only helped a fellow across a ditch.

THE QUARANTINE ASSOCIATION.

Maritime Body Is Now In Session at Mobile, Ala.

Mobile, Ala., Feb. 27.—The Maritime Quarantine Association of Alabama, Louisiana and Texas in session here Friday adopted quarantine regulations for the ensuing year.

All passengers from these ports will be required to produce satisfactory certificates that they have not been in infected towns within five days prior to the sailing. Those attending the meeting were Drs. Goode, Goldthwaite, Hall and Acker, of Alabama; Drs. Tohmas, Souchon, Owen and Nolte, of Louisiana, and Dr. Tabor, of Texas.

Miss Bloodworth's murder caused great excitement at Decatur, and a lynching was expected at the time had the murderer been apprehended.

Youths Held for Highway Robbery.

Birmingham, Ala., Feb. 27.—The grand jury has indicted the three youthful highwaymen that came from Atlanta to this city, and who were captured after several operations. The boys are J. F. Latham, Jim Blackstock and John Blackstock. The boys claim that John Patterson, who is in jail in Atlanta was also a member of the gang. Highway robbery is the charge on which the boys were indicted. Alabama punishes that offense with death.

Warsaw, Feb. 27.—Contrary to expectations the Vienna railway strike has not ended. The engineers and firemen and the mechanics employed in the machine shops at Warsaw and Reborow are dissatisfied with the terms offered and refuse to accept them. A crowd of strikers today prevented a resumption of the train service which had been arranged to commence at noon.

Birmingham, Ala., Feb. 27.—Alton Dale, the 6-year-old boy who was shot last Sunday by his sister, 2 years older, at Opelika, died Friday evening from the effects of the wounds. The shooting was accidental. One sad feature to the shooting was the fact that the rifle was bought for the boy last Christmas as a Christmas present.

The Russians retired in the direction of Hsinmingtun. New Chwang is full of rumors of an impending battle on the Hun river. The unusually warm weather will probably lead to active military operations.

The Russians shelled Litajentun and Chenchiehpao yesterday. On the same day they burned and abandoned Chiensunmupaotzu near Waitao mountain.

Collisions between scouts and reconnoitering parties continue.

About two years will be required, it is said, for the work of construction.

Bassett is a young married man, and has one small child.

MADE A BIG THING.

J. E. Futch Sold 3,000 Boxes of Oranges From Wauchula Grove.

J. E. Futch of Alachua, one of the leading merchants of that thriving town, after spending Sunday with his family here, departed yesterday for Wauchula, where he has handsome grove property.

Mr. Futch stated that his grove yielded for the season just coming to a close a few boxes over three thousand. Most of the fruit was sold on the trees and brought good prices. It was all of fancy varieties, bright and of fine flavor.

The recent cold weather in this State did not affect the Futch grove materially. The owner states that he probably lost between 100 and 150 boxes, but the trees were not injured, and on several trees the leaves did not even shed. He has great confidence in the future of South Florida as an orange growing section, and declares that with reasonable precaution it is impossible to sustain damage from cold.

Prominent Mason Here.

Among the prominent visitors to the city yesterday was W. S. Ware of Jacksonville, Grand Secretary of the Grand Chapter of Masons of Florida, who paid Gainesville Chapter an official visit Monday evening. Mr. Ware was greeted by a large number of fellow craftsmen and the evening was spent in a most instructive and enjoyable manner. He took occasion to pay Gainesville Chapter a high compliment regarding every condition of their lodge.

Mr. Ware is a prominent factor in the upbuilding and sustainance of Jacksonville's manufacturing interests. He is a large stockholder in the Knickerbocker Ice Company, which is one of the largest plants in the South, having a capacity of 200 tons per day. He expressed great satisfaction at the rapid growth of Gainesville, which he good naturedly declared had grown "from a village to a city within five years."

FREE IF IT FAILS.

W. M. Johnson, Druggist, Offers the People of Gainesville Vinol, a Body-Building, Strengthening and Healing Medicine.

We have a warranted cure for all thin, tired, debilitated, nervous people. It is Vinol, the most delicious and valuable preparation of cod liver oil ever discovered. Vinol tones up the digestive organs, cures all stomach troubles, makes rich, red blood, creates strength, and builds up firm, healthy flesh.

Mr. Frank Graves, a lawyer of Winoonski, Vt., writes: "Permit me to say a word indorsing the peerless merits of your cod liver oil preparation, Vinol. I was in very poor health when I bought my first bottle of Vinol, and I wish every sufferer could see what it has done for me. It brought back my appetite, put flesh on my bones, strengthened my nervous system, and toned up my whole physical condition. Vinol simply did wonders for me."

As we have so often stated in these columns, Vinol is the greatest strength creator known to medicine, and we do not believe there is a person in this vicinity but what Vinol will benefit at this season of the year; it never fails to make the weak strong and the sick well.

Vinol is just as valuable for all hacking coughs, chronic colds, throat and bronchial troubles, and we return money if it fails. W. M. Johnson, druggist.

DESERVED PROMOTIONS.

Dillon Graham to Be Made Agent and G. E. Hurtel Cashier Express Office.

The resignation of H. T. Welch, for the past year agent of the Southern Express Company, has caused some deserved promotions to be made in that office, effective March 1, when Mr. Welch will retire to assume his new duties with the McKean Lumber Company, Sarasota, in which he has purchased an interest.

Dillon Graham, for the past eighteen months the efficient cashier, has been promoted to be agent, while Freight Clerk George E. Hertel, another faithful employe, will act as cashier. The appointment of freight clerk has not been announced.

Both Messrs. Graham and Hertel have been earnest and faithful workers, and their promotion comes purely from a standpoint of merit. They are receiving congratulations from their friends.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. How to Shoot a Rattler.

The writer once saw an Indian kill a rattlesnake in a very peculiar manner. The rattler was about ten feet from the Indian, who was resting the rifle on his knee, apparently taking aim.

Whenever he moved the weapon a few inches the snake would move around and get exactly in line with it. Then, to show how the thing was done, the Indian moved about the snake in a circle, and the reptile moved as if its tail were a pivot, always keeping its head and body in line with the gun. The Indian then agreed to bandage his eyes and shoot the snake in the mouth.

The writer bandaged the Indian's eyes, and, holding the gun by his side at arm's length, the latter pulled the trigger, and the ball entered the snake's mouth and passed the whole length of its body.

"How did you take aim?" was the query.

"The snake he take aim," was the reply.

We have talked with an old hunter on this proposition, and he claims that a rattlesnake will always range directly in line with a gun or stick pointed at it.—Exchange.

JONATHAN DORE.

His Transformation to Savagery and Return to Civilization.

In June, 1746, Jonathan Dore, a boy of twelve years old, was told by his father, who was at work with other men in the field, to sit on the fence and keep a sharp lookout for Indians, who were suspected to be not far away. This was in or near Rochester, N. H. The boy sat whistling on the fence. The Indians all at once came in sight. He gave the alarm, and the men all escaped, but before he could get down from the fence the Indians seized him. His father saw him captured and carried off, but could do nothing. Eleven years afterward the Fort William Henry massacre occurred. Among the New Hampshire soldiers who escaped was a Dover man, who declared confidently that he had seen Jonathan Dore. He had often been at Mr. Dore's house and knew Jonathan well. He was sure he had not been mistaken in his identification.

When the massacre became general after the surrender of the fort, the Dover man ran for the woods and was closely pursued by an Indian. His pursuer gained upon him so fast that he turned at last and faced him to meet his unavoidable fate. The uplifted tomahawk was just descending upon his head when he recognized, amid the paint and costume of an Indian, the eyes of Jonathan Dore. The recognition seemed to be mutual. The Indian dropped his tomahawk at his side and walked slowly back to the fort.

Such was the story of the returned soldier, but it gained little credit. Two years later, however, Jonathan Dore suddenly made his appearance in Rochester after an absence of more than thirteen years.

He had been treated kindly by the St. Francis tribe, to which his captors belonged, had married an Indian girl, had acquired the habits and disposition of an Indian, and indeed had almost forgotten that he was descended from another race. He bore a part in all the cruelties at the taking of Fort William Henry. A white man whom he was pursuing turned upon him just in season to arrest the descending tomahawk, and then Dore saw a face which had been familiar to him in childhood.

Memories of his father's fireside and the happy scenes of his boyhood rushed upon his mind; his arm fell, and he walked back to the fort and took no further part in that horrible tragedy. From that time he thought continually of his boyish home, but his wife and children bound him to the Indians with ties that could not be severed.

Then came Major Rogers and his rangers, intent upon avenging the Fort William Henry butchery. Dore was absent in the field husking corn. Hearing a general discharge of muskets and knowing that an enemy was upon the village, he kept himself concealed and from his hiding place witnessed the massacre that followed. Then the village was set on fire, and after the flames subsided he ventured forth.

Among the ruins he found the bodies of his wife and children. He buried them in one grave and with them his attachment to the Indians. As soon as possible he made his way back to Rochester. He settled in Lebanon, Me., married again and spent there the remainder of his days, famous for his marksmanship, especially with the bow and arrow, and known to every one as "Indian Dore."

Itch—Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me permanently. Since then I have used the liniment on two separate occasions for ringworm and it cured completely. 25c, 50c and $1 bottle. Sold by W. M. Johnson.

Wrestling With the Spaniard.

When Walter Williams, from Columbus, Miss., was in Spain in the summer of 1903 he called upon a provincial editor in the interest of the St. Louis exposition. The next day the paper had the following: "Walter Williams of the United States purchased the state of Louisiana and next year will give a celebration, to which he invites all fellow journalists of Europe." Mr. Williams again called upon the editor and thoroughly explained matters. The editor apologized and printed this correction: "Governor Francis of Missouri has purchased a large tract of land in the Great American desert, and Walter Williams is here to invite the journalists of Spain to a show which the governor will give next year." Mr. Williams fled the place, fearful the editor might explain some more.

THIS WAS A "BUSTER."

Hon. Henry S. Chubb Received Letter Five Feet Eight Inches Long.

"I tell you, I am getting to be a popular proposition," good naturedly remarked Hon. Henry S. Chubb, receiver of the United States land office, Saturday, when he unrolled a letter measuring five feet, eight inches, closely written.

This letter was received by Col. Chubb, as chairman of the Republican State Central Committee, and in whom aspirants for office manifest a great deal of confidence, from a certain candidate for a postmastership in a small town in West Florida. It appears that there had been some opposition to the recommendation or appointment of this candidate, and the letter was filled with reasons why the opposition existed, as well as a long list of the qualifications and history of the applicant, stating why he should be "the favored one." As a matter of course Col. Chubb would not give the author of the letter, neither would he make its contents public, but intimated that this was the sense of the epistle.

Col. Chubb proposes to take a half-day off at some future time and absorb every sentence of this interesting and appealing document, and will weigh the contents with that consideration which will mean justice.

THE UNION SERVICE.

Services at Tabernacle Sunday Evening Largely Attended.

Owing to the absence of Dr. Clarence B. Strouse, who had consented to preach, from the city Sunday, the service was conducted by the pastors of the Presbyterian, Methodist and Baptist churches, the pastors of the respective churches affiliating in the service.

The meeting was presided over by Rev. Thos. P. Hay of the Presbyterian Church, who incidentally delivered a fine talk of about fifteen minutes. He was followed by Rev. T. J. Nixon of the Methodist church, who spoke with great earnestness, and in whom the large congregation was deeply interested. The benediction was pronounced in an impressive manner by Rev. S. B. Rogers of the Baptist church.

The service was preceded by an excellent song service of a half-hour's duration, and during the evening Mrs. Munford rendered several delightful sacred solos.

Altogether the evening was a most interesting one, and those who attended felt glad they were present.

Mr. Hampton Here

B. F. Hampton, formerly of this city but now residing in Jacksonville, where he is associated in the real estate business with Phillip Miller, is spending a day or two looking after his interests here.

Mr. Hampton has always been regarded as one of Gainesville's most progressive and wide-awake citizens, and says yet he has a great "hankering" for the city and its people. He was instumental in the organization of the Gainesville Board of Trade, and up to the time of his departure was the secretary of that organization. He still retains large real estate interests here, and feels like "one of us."

Mr. Hampton was delighted with the information that the appropriation of $15,000 was recommended in the bill for the public building at Gainesville. Through the generosity of this gentleman and Jas. M. Graham the site for the building was donated to the government, and largely to their influence, especially that of Mr. Hampton, who acted as a representative of the Board of Trade, was the building made possible. The people of Gainesville appreciate his energetic spirit, and regretted to see him leave.

Dyspepsia of Women

ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

Brewer a Spendthrift.

Chicago, Feb. 27.—John R. Cooke, one of the members of the Cooke Brewing company, has been found to be a spendthrift by a jury in the probate court. That he has an income of $15,000 a year and has spent as much as $500 in one night, was the evidence introduced. His wife testified last year she had received but $84 from her husband for the support of herself and child. She left him several months ago.

Fire in Washington Apartment House.

Washington, Feb. 27.—Fire broke in a hair dressing establishment in the Lilitchen apartment house, near Fourteenth and I streets, early today, caused considerable excitement among the guests in the apartments. A number of them, as well as residents in the burning structure, escaped in their night clothes, several seeking safety by climbing through the windows. No one was injured. The financial loss was slight.

Negro Murderer Given 25 Years.

Huntsville, Ala., Feb. 27.—John Horton, a negro who killed Alfred Hereford in a quarrel over the ownership of a dime in a crap game, was found guilty of murder in the second degree and sentenced to serve a term of 25 years in the penitentiary. Horton attempted to prove self-defense and witnesses for the defendant claimed that a knife was found under Hereford's body on the next morning. State witnesses testified that Hereford had no knife.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

Famous Will Case Decided.

Nashville, Feb. 27.—She court of appeals today decided the famous Goodwin will case by which the Goodwin institute at Memphis gets about $500,000.

A Modern Antique.

A story told of Pistrucci has its point for collectors. Pistrucci was an Italian and chief engraver at the mint. It is, by the way, to him that England is indebted for the fine group of St. George and the dragon on the reverse of the sovereign. He insisted that modern work in cameo should be quite as fine as ancient work. A "potboiler" head of Flora which he engraved and sold to a dealer for £5 was afterward sold as an antique to Richard Payne Knight for £500. Knight took the cameo in triumph to Pistrucci.

"Where can you get modern work like that?" he asked.

Pistrucci smiled and claimed the antique for his own. Knight would not believe him.

"Examine the roses," said the artist, "and you will see that they are modern flowers."

The point was admitted by others, but never by Knight, who bequeathed the gem and the rest of his collection to the nation. But for the roses an expert would undoubtedly pronounce Pistrucci's cameo a fine antique.

Health

Means the ability to do a good day's work without undue fatigue and to find life worth living. You cannot have indigestion or constipation without it's upsetting the liver and poluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has ever known. Mrs. D. W. Smith writes, April 3, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Sold by W. M. Johnson.

Married His Grandmother.

There lived in the village of Arreton, Isle of Wight, many years ago a young man who was betrothed to a young woman. Both were poor and in humble life, but the grandfather of the young man had money, and he fell in love with the young woman and proposed marriage to her. The girl told her lover. He was displeased, but, having pondered over the dilemma, saw a way to extricate himself and his sweetheart from the same. "Marry him," said he to the girl. "He is rich. He cannot live long. When he dies you'll have his money, and I'll have you." She took the advice. By the marriage she became the young man's grandmother. Not long after the old man died, and then she wedded her first betrothed.

NO CAUSE FOR ALARM.

There need be no cause for alarm that Gainesville will overdo herself in the building line. Many new residences are being erected, but they are for occupancy by the owners. During the present winter many men with families have decided to make this city their home. People from the North who have come here and seen for themselves are satisfied to locate here. They have satisfied themselves that there are several good reasons for locating here.

First and foremost, is the one principal reason, that by a perusal of the topography of Alachua county, it will be seen that it is the highest point in the State—the Great Divide, as it were, East and West.

In the second place, there is no denying the fact that it has the best drinking water in the State, an item that is of more importance than many would imagine, as it is absolutely free from malaria.

Third, it has a class of people that is equal to any city in the North or South—law-biding, whole-souled, and of a class that respects the opinions of all who differ with them.

We could go on still farther and keep within the bounds of trust, if it were necessary; but another year will show an increase in population to prove that every new residence that has been erected will be needed. The man who is looking for a home and comes to Gainesville may then seek farther if he is not satisfied at first, but will return here after he has inspected other portions of the State.

There will be many additions to our population from the North in another year. Watch us.

There is talk of raising the salary of the President to double the amount he draws every pay day now, on the theory that some of the rulers of foreign countries are paid five times as much. The war of 1776 was brought about to relieve this country of just such high-salaried figure-heads, and he has the alternative of not accepting the office the second time, if he finds the salary too small to subsist on. There are plenty of men who would do well on the $50,000 a year the President draws.

The only drawback to building operations in Gainesville is the lack of material for the mechanics to go ahead with their work. Contracts are being let with great regularity, and new buildings are going up in nearly every quarter of the city.

There is some talk among the Knights of Pythias in this city of building a temple, where the order can have a home of its own. The idea is a good one, and as was suggested a reading room and place for social gatherings would be a desirable adjunct.

With Uncle Steve Elkins as chairman of the Senate Committee on Interstate Commerce, the people need look for no relief from that source until he has got back the $80,000 he contributed to the campaign fund.

March 4th ends the holiday for many Congressmen, and they view with regret the opening of the season when they will have to go to work.

WOMEN ON SCHOOL BOARDS.

In Jacksonville there was recently inaugurated by The Florida Sun a crusade against filthiness in and about the public schools of that city. The Sun awoke such keen interest in this fight for cleanliness in the public schools that The Metropolis joined in the crusade and The Times-Union gave columns as a news feature to describe the interesting developments.

One of the interesting outcomes of the campaign is the suggestion from prominent men and women of that city that the Constitution of the State of Florida be amended so as to provide for representation for women on the county boards of public instruction. This is the most interesting question which has arisen in connection with the matter. There was some deep interest, it appears, in Jacksonville over the condition of the Riverside school, and, judging from what was reported of its sanitary condition, there ought to have been, but this matter of providing for women on our school boards is of vast importance to the State.

Women are naturally interested in the public school. They are interested to the extent that it is in the public school that the mother sees her child for a considerable part of his career under her guidance. It is therefore proper that the mother should be heard in matters of education and that her advice and her counsels should be heeded. But who will say that this is not the case under the present system? Is it not a fact that in Florida there are two women to one man connected with the schools of the State? The connection these women have with our schools is direct, while that of the school boards are indirect to a certain extent. The school teacher is on the ground and in charge of the children and the school, while the school board is absent while directing the general State plan of the work. It is therefore true that the women of the State have as much to do with the schools as the men, and to them is largely due the credit or discredit for the results.

In the South any suggestion looking toward the entering into politics of the women of our land will be rebuked. It ought to be. It is not the proper sphere for the women to enter. Her line of duty is not in wielding, but more in directing political power by the offices which she performs in the home.

There might be something said, too, against the care and the wisdom which the women of Florida or any other State might exercise in political bodies. As a rule, women are impulsive, and in a great many instances it has been shown that they lack that executive and legislative ability which their protectors have been given by the laws of nature which gave to man the responsibility of government.

There is an illustration of this in the case in point. The campaign against the condition of the Riverside school in Jacksonville was waged because of the condition of the water closets more than any other cause. They were unsanitary and the teachers in charge had not prevented or attempted to prevent the presence of obscene writings on the walls. The women of Riverside took the case in hand. They met and decided to take immediate control. The immediate effects of their crusade were refreshing. Under their direction the janitor was put to work and the school premises were made clean and presentable, as well as sanitary. But in their haste to present themselves at a meeting of the mothers of the school on the day they were engaged in this work the committee walked away from the school grounds with the keys of the outbuildings. An entire day for three hundred or more children at the school without the privilege of attending to their personal needs was the result.

The bare statement of this fact by one of the Riverside mothers who protested against the action of the committee in carelessly taking the keys with them and failing to return them when they found that they were needed at the school is said to have silenced any further discussion of the matter in Jacksonville.

The suggestion to permit women to enter politics, even in the interest of the desire of some of them to have charge of public school matters, will not be met with a popular response in this State. It ought not to be. Certainly the women of Florida would oppose the dragging of their sex into politics. So far as the schools are concerned the women's duties are plain. It is their privilege to inspect the school room, the premises, and to protest as vigorously as women can when school matters are not being conducted as they ought to be. They should not seek, and do not seek, to enter the mire of politics in order that they may be placed at the head of the school system of their State. It might prove the beginning of a general entrance into the arena of politics and a consequent destruction of the wholesome influences which women in their position wield.

The Tampa Tribune says that the State Press Association, at its annual meeting, "should expose the rascality of all the dead-beat advertisers." There are many other things "for the good of the order" that should come up and have some of the visiting cut out.

The Panama Canal Commissioners who admitted irregularities in drawing salaries and payment from the railroads at one time probably thought confession was better than being caught. General Bristow is down there on a tour of inspection.

The Kansas Legislature proposes to have its convicts work the oil refineries in opposition to the Standard Oil Company. According to Tom Lawson, the competition will be between men who are in jail and those who ought to be.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

SUNDAY TRAGEDY AT TURPENTINE CAMP

One Negro Fills Another With Contents of Shot Gun.

DEATH WAS INSTANTANEOUS

Men Were About to Engage in a Game of Chance When an Altercation Occurred—Murderer Arrested, and is Now in Gainesville Jail.

Because of a drunken row near the turpentine still of E. W. Millican, Waldo, at dawn Sunday morning, Squire Perry is now in his grave and the assassin, Isham Anderson, is in the Alachua county jail, with strong steel bars between himself and liberty. Both men worked at the still of Mr. Millican. From the best information obtainable, it is stated that the two men had been drinking blind tiger or some other kind of "booze" during Saturday night, and were very quarrelsome. About daylight they, with other negroes, retired to a vacant shanty, ostensibly for the purpose of engaging in a game of "skin"—a favorite pastime with the negroes of this class.

Shortly after arriving at this hut the two men became involved in a quarrel over a trivial matter, when it is said Perry suddenly pulled a pistol and fired at Anderson. Anderson lost no time in discharging the contents of a shot gun into the body of his aggressor, and death was instantaneous.

The incident naturally caused a scene of great excitement and animation among those who witnessed the tragedy, with the result that they scattered in every direction. Anderson made no attempt to escape, and a short time after the killing was arrested by Mr. Millican and turned over to the custody of Deputy Sheriff Kennard. The officer brought his prisoner to Gainesville Monday, where he is now in jail.

Both men were old employes of Mr. Millican, having been with him six or seven years. Anderson was a a stiller, while the dead man was employed chipping and dipping boxes.

Anderson declares he killed Perry in self-defense.

OLDEST LAW OFFICE BURNED.

Famous Papers Destroyed With Offices of Rawle.

Philadelphia, Feb. 27.—The oldest law office in America was partly destroyed today when a fire occurred in the old Orphans Court building.

The flames reached the second floor, occupied by the law offices of W. B. Rawle and A. T. Freedly. Papers belonging to the William Penn estate and law reports dating back to the time of George I were damaged.

The Rawle law offices are world famous, not alone for their antiquity, but for their library, which is probably the most valuable private collection of legal reference books in America. The offices were established by William Rawle in 1783, and are the oldest in the United States.

Rebels To Be Banished.

New York, Feb. 27.—It is announced that the officers condemned by the war council for preparation in the recent rebellion has convened temporarily in the federal prison, says a dispatch from the Herald correspondent at Buenos Ayres, Argentina. They will be held there until a sailing vessel is bound southward, when they will be transferred to the military prisons in the state islands, near Terra del Fuego.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

A Number of Ottoman Subjects Have Been Murdered by Strikers.

Constantinople, Feb. 27.—Advices from Batoum say the prefect of police and several leading merchants of that city have been assassinated and that numbers of Ottoman subjects have been murdered by Georgeian strikers.

The porte has drawn the attention of the Russian embassy to the situation and the latter has promised the necessary protection. Revolutionary manifestos in favor of a republic are being circulated broadcast at Batoum. The movement is not confined to the city workers, but has many adherents among the peasants and agricultural classes who claim that the land owners are treating them as serfs. The whole of the Caucasus is said to be seething with disaffection. Armenians, Jews and people of other nationalities and creeds are aiding the strikers, who appear to be acting under the orders of a committee at St. Petersburg.

Prevent
As Well As Cure
Headache

If subject to headache, take Dr. Miles' Anti-Pain Pills when you feel the first indication of an attack, and you will find that they rarely ever fail to stop further progress.

Pain weakens the nerves, and the longer you suffer, the more frequent will be the attacks.

On the contrary, if the nerves are relieved of this weakening influence, the attacks will be less frequent, and finally disappear altogether.

Dr. Miles' Anti-Pain Pills contain no opium, cocaine, morphine or chloral in any form. They are absolutely harmless if taken as directed, and will have no other effect, except to drive out the pain.

"Dr. Miles' Anti-Pain Pills are all right, and I can recommend them to any one in need of a remedy for headache, neuralgia, or pain of any kind. My health is not very good, and I am subject to frequent attacks of severe headache, but since I began taking Dr. Miles' Anti-Pain Pills I do not suffer from that trouble as I used to. They never fail to give relief in a few minutes, and if taken promptly on the approach of headache will prevent an attack from coming on. Pain Pills prevent, as well as cure."

LARGE FIRE VISITS HOT SPRINGS, ARK.

Over One Million Dollars Worth Of Property Destroyed.

2,000 PEOPLE ARE HOMELESS

Famous Health Resort Suffers from Conflagration—Water Supply Failed and a High Wind Prevailed—Three Lives Reported Lost.

Hot Springs, Ark., Feb. 27.--A fire which broke out at midnight has destroyed 100 buildings in the southern portion of the city and is still burning fiercely, at 8 o'clock this morning. A high wind prevails and the water supply has failed. It is impossible to estimate the damage at this hour, but it is already very heavy.

The burned section extends from Ouchita avenue to Oaklawn.

At 8:25 a. m. the fire seems to have burned itself out. There are 2,000 people homeless, including many visitors.

The estimate of the loss is placed at a million dollars.

The fire was checked at the Methodist church, the district where the hotel Moody was located having been entirely destroyed. The burned section comprises about one-fiftieth of the entire area of the city and was occupied almost exclusively by the poorer classes.

The main hotels, the Eastman, Park and Arlington, are safe and both railroad stations were saved. The fire was in the southern part of the city, the northern limit being the Methodist church.

Three or more lives are reported to have been lost but the idenity of the victims cannot be learned at present.

The fire started at 3:30 o'clock this morning in the Grand Central hotel, at the corner of Central avenue andChappel street, in the southern portion of the city. A high wind was blowing and the flames quickly spread to the south and west.

The Plateau hotel, Hotel Moody, the Garnier flats and several lodging houses were quickly destroyed.

The fire department rendered good service until 6 o'clock when the water gave out and the threatened area was left to the mercy of the flames.

Duffie's general store, one of the largest in the city, is a total loss.

The charred bodies of three women are reported to have been in the ruins of the Grand Central hotel. The remains were so badly burned as to make identification difficult, if not impossible.

When the water pressure gave out, bucket brigades were formed and hundreds of citizens and visitors volunteered their services. At 9 o'clock the fire was still burning, but it was pronounced to be under control.

The spring season always attracts a large number of visitors to this resort. The city has been filling up with visitors for several weeks, and it is estimated full 20,000 of these sojourners are now here.

The firemen put forth every effort to save the county court house and jail, but their efforts were of no avail, both structures bein consumed.

Many valuable records were burned and the 20 prisoners in the jail were rescued with great difficulty.

In the South Hot Springs cottage district, which was consumed, several persons are missing, but it is not known that any loss of life occurred there.

The Jewish synagogue, the Central Methodist church and the residences of Mayor Belding and Sheriff Williams were completely destroyed.

The district occupied by the bath houses and the entire government reservation, in the east side of Central avenue, escaped the flames.

Telephone and street car service is suspended, and all business has been practically abandoned for the day.

A systematic search of the ruins has resulted in the finding of two male bodies. This makes a total of five known dead and other bodies may be discovered.

As the day progressed estimates of the losses exceed those of the early morning, many residents stating that $2,000,000 will not cover the damage. Insurance men are at work preparing a statement and will not give out their estimates in advance.

For a time the magnificent Park hotel, situated in the southern portion of the city, was considered to be in danger, but the wind shifted to the west and the hotel was left undisturbed.

BOILS AND ERUPTIONS

Have been suffering from Impure Blood for many years, having Boils and other Eruptions. Having heard of S. S. S. I decided to try it, and am glad to say that it has done me a great deal of good. I intend to continue to use it, as I believe it to be the best Blood Medicine on the market.
Cleveland, Tenn. W. K. DETERS.

For over fifteen years I have suffered more or less from Impure Blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all Boils disappeared and I have not been troubled any since.
GEO. G. FERTIG.
114 W. Jefferson St., Louisville, Ky.

Newark, Ohio, May 23, 1903.
From childhood I had been bothered with bad blood, skin eruptions and boils. I had boils ranging from five to twenty in number each season. The burning accompanying the eruption was terrible. S. S. S. seemed to be just the medicine needed in my case. It drove out all impurities and bad blood, giving me permanent relief from the skin eruption and boils. This has been ten years ago, and I have never had a return of the disease.

A Restricted Essay.

The puzzle department of London Truth called for a competition in accounts of a round of golf containing no letter "a" or "u." Here is a good specimen from the many replies received:

"I know nothing of golf. Some people do, or pretend to. However, I visit the links, for I like to look on. Slow work, yet good for the liver. They hit some kind of sphere into holes on the green, then seek for it. Some find it in them, some do not. Men who win grin. Men who lose bless everybody, sotto voce, being too polite to do so before people. Women who lose despise the she winners. Their verdict is, 'ill dressed objects,' 'wizened things,' 'no chicken.' Men do differently, for when finished they drink together in good fellowship, then mizzle—to dine, not repine."

The Reporter Succeeded.

In New York on one occasion a reporter made several vain attempts to see J. Pierpont Morgan, both at his office and his residence. Finally his opportunity came. He was interviewing another financier and incidentally came into possession of the latter's card. He kept it; then, going to Morgan's residence, he sent in his own card in company with that of the financier. The ruse was successful, and he was shown into Morgan's presence. When the reporter had stated his reason for the call the financier said: "Do you know, young man, that at least ten reporters have tried to see me today with reference to this question? I have declined to see any of them." The reporter smiled and replied, "Yes, sir, I know that, for I was the whole ten." He got his interview.

Damages Enough.

There had been a railway collision near a Scottish country town, and an astute local attorney had hurried to the scene of disaster. Noticing an old man with a badly damaged head lying on the ground, he approached him with notebook in hand. "How about damages, my man?" he began. The injured man waved him off with the remark: "Na, na; ye'll get nae damages fae me. It wasna me that hit yer bloomin' auld train."

The Other Kind.

"Do you think there is anything remarkable in love at first sight?" asked a romantic youth.

"Not at all," replied his cynical friend. "It's when people have been looking at each other for four or five years that it becomes remarkable."

Mobile, Ala., Dec. 24, 1890.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking The Texas Wonder, Hall's Great Discovery, and being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder." Yours truly, W. B. Clark.

William Hughes, the negro sent up from Gainesville for selling liquor in a dry county, and who escaped from the guards at McDonald's camp Friday of the past week, is still at large, but the officers are aware of his whereabouts and can apprehend him at any time.

Hughes has been very obstinate ever since his confinement. He has made himself very unpopular among his fellow-prisoners, all of whom openly declare they are glad he is gone, and hope he will never be captured.
